

Women Religious Making a *Difference!*

Catholic Sisters from across the country, along with their friends and families are coming to New Orleans for **Nuns Build** to rebuild the homes and lives of Katrina survivors.

On-site skilled site supervisors will teach volunteers how to install insulation, drywall, flooring and trim on more than 10 houses over the course of 6 days. Sisters of all skill levels are encouraged to participate.

To date, more than 10,000 New Orleans area families continue to live in FEMA trailers or temporary housing. The people of New Orleans need your help.

Volunteer for one day, or volunteer for all.

Volunteer. Make it a *habit.*

Join them!

About St. Bernard Project:

- The St. Bernard Project is a rebuilding non-profit created to fill the great need for housing in the New Orleans area.
- Since its inception in 2006, 17,000 volunteers have restored the homes of more than 260 families.
- Despite the progress, more than 10,000 families in greater New Orleans are still living in FEMA trailers or disaster housing.
